**Weekly Report - 28/08/2017-01/09/2017 (Week 8)**

**Trainee: Daniel Ramos**

**Mentor: Afonso Ribeiro**

**Co-Mentor: Vítor Martins**

**Summary:**

This week main focus was the preparation of the final presentation. It has been decided that the final presentation will include a video instead of a live demo because of the huge amount of time required for the algorithm to execute. Next week's plan is to finish the keynote and record a video for the demo.
